

Individual Mill Access

This opportunity is for those with experience making loom files for industrial Jacquard looms. Individual Mill Access provides such an individual with access to equipment and staff of The Oriole Mill.

The Jacquard Center will provide the client with a questionnaire to determine the amount of support needed during the requested days of access. No access dates will be scheduled until after the information provided in response to the questionnaire is evaluated.

\$200 per hour. Minimum is 6 hours per day, maximum is 8 hours per day, for up to three consecutive days.

Minimum Weaving:

\$500 This covers 10,000 weft insertions.

Weaving beyond 10,000 insertions is charged at five cents per weft insertion. (A weft insertion is the equivalent of a single shuttle throw on a hand loom or a single Jacquard card in industry language.)

Sampling is charged at five cents per weft insertion, whether the filling yarn is supplied by the client or from our inventory. Significant changes to the file must be executed while the client is present. Minor changes (such as specifying an alternate filling yarn) can be made by request, at a distance, at no additional cost. Extensive modifications are charged at \$ 200.00 per hour.

Once prototypes have been approved by the client, we will weave the production without the client present. Until we have an order for a minimum production run (usually 50 - 100 yards), we will weave at the sampling rate.

Production orders will be filled within six weeks, unless other arrangements have been made. Orders are shipped at our shipping cost + 15%. Unless otherwise requested we ship using Fed Ex.

Fabric can be shipped folded or on a tube. Fabric shipped on a tube is an additional \$10.00 -- to cover the cost of the tube and the telescoping box used. If shipping is international, all customs or duty charges must be paid by the recipient.

The Oriole Mill

The Oriole Mill produces exquisite fabrics for the home and the body. The Oriole Mill hosts classes from The Jacquard Center, and in other ways invites close cooperation between artists and industry. Dedicated to making the finest Jacquard and Dobby fabrics, from natural fibers, this mill hopes to lead a resurgence of small "Artisanal" mills, and create a new domestic textile industry.
